Administrative history / Biographical sketch

Note

Walter C. Koerner was born in what is now known as Czechoslovakia (formerly part of the Austro-Hungarian Empire). In 1939, fleeing the expansion of Nazi Germany, he left Europe and emigrated to Canada. Upon his arrival in British Columbia, Koerner, with members of his family, founded a company known as Alaska Pine. He became a major figure in British Columbia's forest industry. Koerner was a significant collector of art, most notably European ceramics and North American First Nations art. In 1941, Koerner began collecting Northwest Coast First Nations art. He is credited with making important contributions to the artistic renaissance of First Nations art through his philanthropy and patronage. Walter Koerner played a significant role in the development of the University of British Columbia campus, lending financial and political support to several projects including UBC Library, the University Hospital, and the Museum of Anthropology. Walter Koerner died on his birthday July 21, 1995.

Fonds consists of physical and intellectual descriptions of objects in the form of photographs and textual records that provide relevant background information and bibliographic citations relating to Koerner's personal collections. Title: Koerner Collection Photographs

ID: 03

Accession number [alternative]: 2018-16

Date: [between 1967 and 1992] (date of creation)

Scope and content:

Series consists of photographic negatives and prints of items from Walter and Marianne Koerner's personal collection. Subjects include ceramics and First Nations art. It is likely that many of the photographs were taken by Eugene Horvath, who acted as a sort of personal assistant to Walter

Koerner's collecting hobby. It is probable that most of the photographs in this series were made for use in the collection catalogues.

Physical description: 1552 photographs : b&w and col. negatives, prints, slides
Textual records

Physical condition:

Most of the negatives are suffering from at least mild stages of acetate degradation.

Arrangement:

Files labelled "Horvath 3837 Osler St 00-12019" were received in ziplock bags with the just mentioned label written on them. It is surmised that these were photographs taken by Eugene Horvath, a ceramics scholar of Hungarian descent living in Vancouver. Other files were variously held in folders, containers, and ziplock bags. Current arrangement reflects the original groupings of items and file names follow original container labels.
